95–100% Annotation Accuracy ♦ 6+ Years Remote Experience ♦ Text | Image | Audio Annotation ♦ 20+ Enterprise Tools

PROFESSIONAL SUMMARY

Results-driven AI data specialist and multi-domain professional with 3+ years of experience delivering precision-grade annotation across image, video, text, and audio modalities, while simultaneously operating at executive level across technology, real estate, legal, and sales environments. Consistently ranked among top-performing annotators with 95–100% quality scores on RLHF, computer vision, and NLP pipelines, with deep practical knowledge of Labelbox, CVAT, and Remotasks. Brings rare dual expertise: the technical rigour to produce model-ready AI training data at scale, and the real-world professional judgment to evaluate domain-specific content credibly across multiple industries. Proven in fully remote, high-accountability settings supporting CEOs, growing teams, and AI platforms, with a quality-first mindset, proactive communication style, and zero-error standard that makes every role, from Image RL Expert to Generalist Expert to Professional Domain Evaluator, a natural fit.

AI ANNOTATION & RLHF EXPERTISE

Image & Video Labeling

- Applied precise bounding boxes, polygons, polylines, and segmentation masks to images and video frames using Labelbox, CVAT, and Remotasks, consistently achieving 95–100% quality scores and ranking among top-performing annotators throughout the engagement.
- Labeled objects, scenes, and actions across diverse image categories including street scenes, human poses, product imagery, and natural environments for computer vision and reinforcement learning model training.
- Reviewed and corrected peer annotations during QA rounds, providing structured feedback to maintain team-wide labeling consistency and accuracy across the project pipeline.
- Applied multi-frame video annotation techniques including object tracking, pose estimation labels, and scene segmentation for sequential AI training datasets.

Text, NLP & RLHF Feedback

- Annotated and evaluated AI-generated text responses for quality, coherence, factual accuracy, and tone, directly supporting RLHF pipelines for large language models.
- Performed sentiment analysis, intent classification, and named entity recognition (NER) on large volumes of text data with strict adherence to project-specific labeling schemas.
- Rated chatbot responses for helpfulness, harmlessness, and honesty, contributing to measurable improvements in model output quality across the project lifecycle.
- Identified and escalated ambiguous, sensitive, or out-of-scope samples to quality leads, reducing downstream labeling errors across the entire pipeline.

Audio Transcription & Labeling

- Transcribed and time-stamped diverse audio recordings including conversational speech, accented voices, and noisy environments for speech recognition model training.
- Applied speaker diarization labels and acoustic event tags to multi-speaker audio files, meeting strict accuracy and turnaround benchmarks consistently.

PROFESSIONAL DOMAIN EXPERTISE

Technology & Digital Operations

- Deep hands-on proficiency across 20+ enterprise tools spanning CRM, project management, annotation, communication, and AI productivity platforms, enabling credible evaluation and contribution to technology-focused AI training tasks.
- Experienced supporting technology-led teams including SaaS founders and product-driven executives with direct exposure to software workflows, automation systems, and digital infrastructure management.
- Administered CRM and sales tech stacks including HubSpot, Salesforce, Freshsales, and Zoho, with working knowledge of pipeline logic, data hygiene, and system integration relevant to technology domain evaluation.

Real Estate & Leasing

- Managed documentation, correspondence, and compliance workflows for executive clients in property and leasing environments, including lease agreement preparation, client onboarding, and transaction record management.
- Coordinated scheduling, stakeholder communication, and vendor follow-ups for property-related engagements, maintaining accuracy across high-volume, time-sensitive real estate administrative tasks.
- Applied KYC and AML compliance protocols in financial services contexts directly transferable to due diligence and regulatory compliance common in real estate roles.

Legal & Compliance

- Enforced CBN and MTN regulatory standards across a banking operations network, including KYC verification, AML monitoring, and compliance documentation, demonstrating hands-on regulatory governance experience.
- Drafted and managed confidential executive-level correspondence, contracts, and formal documentation requiring strict legal accuracy and professional discretion.
- Maintained structured audit-ready records and operational logs in compliance-sensitive environments with zero-error reporting standards and consistent data integrity practices.

Sales & Business Development

- Supported outbound sales and client engagement workflows using Mailchimp, Flodesk, Lemlist, and AWeber, coordinating list management, campaign scheduling, and performance tracking for sales-oriented executives.
- Managed CRM pipelines including lead tracking, contact management, and client onboarding across HubSpot, Salesforce, and Freshsales, strong foundational knowledge for evaluating BDR/SDR and account executive tasks.
- Coordinated customer support queues and maintained client satisfaction metrics through Zendesk, Freshdesk, and Intercom — bridging sales support and customer success operations.

PROFESSIONAL EXPERIENCE

Data Annotator & AI Training Specialist | *Remote* | Aug 2024 – Present

- Delivered high-quality labeled datasets across image/video, text/NLP, and audio modalities for AI and machine learning pipelines, maintaining 95–100% accuracy across all task types.
- Ranked among top-performing annotators on Remotasks throughout the engagement, with consistent commendations for labeling precision and QA contribution.
- Supported RLHF pipelines for large language models by evaluating AI-generated responses for helpfulness, factual accuracy, harmlessness, and tone.
- Contributed to computer vision datasets through bounding box, polygon, segmentation, and video frame annotation across diverse real-world image categories.

Executive Virtual Assistant | *Freelancing*

- Provided strategic inbox and calendar management for CEOs and founders across multiple time zones — ensuring zero missed communications and protecting executive time.
- Built workflow systems in ClickUp, Asana, Monday, Trello, and Notion, improving task visibility, cross-functional reporting, and deadline adherence across distributed remote teams.

- Created SOPs and process documentation that reduced onboarding time and eliminated recurring operational bottlenecks.
- Administered CRM platforms (HubSpot, Salesforce, Freshsales) , maintaining pipeline accuracy, lead tracking, and client onboarding workflows.
- Managed customer support queues via Zendesk, Freshdesk, and Intercom, ensuring timely, professional responses and high client satisfaction scores.
- Supported email marketing campaigns via Mailchimp and Flodesk, coordinating list management, scheduling, and performance tracking.

Agency Banking Operations Manager | MTN MoMo Network | 2020 – 2023

- Managed a network of MoMo agents ensuring 100% operational uptime and service availability within the assigned territory.
- Enforced CBN and MTN regulatory standards including KYC and AML compliance protocols, demonstrating strong data integrity and governance principles.
- Maintained accurate operational records, activity logs, and performance data using structured spreadsheet-based reporting.

TOOLS & PLATFORMS

Annotation:	Remotasks Labelbox CVAT
Executive & Admin:	Google Workspace Microsoft Office Excel Outlook Canva DocuSign
CRM & Sales:	HubSpot Salesforce Freshsales Zoho Lemlist AWeber
Marketing:	Mailchimp Flodesk
Project Management:	ClickUp Asana Monday Trello Notion Airtable
Communication:	Slack Zoom Microsoft Teams Calendly Google Meet
Support:	Zendesk Freshdesk Intercom Shopify
AI & Productivity:	ChatGPT AI Productivity Tools Google Sheets Spreadsheet Automation

EDUCATION

B.Tech – Technology | Federal University of Technology, Owerri | Sep 2016 – Aug 2023
Master's Degree (In Progress) | Ahmadu Bello University, Zaria | Expected Jun 2026

KEY STRENGTHS

95–100% annotation accuracy • Multi-domain professional knowledge • RLHF & computer vision expertise • Regulatory & compliance experience • High-volume remote work ethic • Precision data management • Proactive issue escalation • Fast adaptation to new tools & guidelines • Dual expertise: AI Annotation + Operations
